

CRISTIANA MASI

Il concept è creare una casa dove possiamo rilassarci, ricaricarci e sentirsi a nostro agio attraverso il colore e il design che collaborano nel creare un senso di rinnovamento e comfort. Un viaggio verso tonalità calde e serene per creare un luogo di riposo e relax, blu e verdi per rigenerarci e scuri saturi per proteggerci dalle pressioni esterne.

“La casa è il nostro rifugio e il colore è il modo più semplice per renderlo unico”

Our concept is creating a home where we can relax , recharge and feel at ease through colour and design both cooperating to give birth to comfort and sense of renovation. A trip towards warm and quiet tones to create a relaxing and resting place where blues and greens are there to regenerate us and dark saturated colours are there to protect us from external pressures.

*" Our home is our shelter and colour is
the simplest way to make it unique "*
